BIONIC BEATS!

A MONTHLY PUBLICATION

HAPPY 16TH BIRTHDAY BIONIC!!

May marked a significant milestone for Bionic as we celebrated our 16th birthday! From our humble beginnings in Merrillville, IN, in 2008, we've grown to over 50 clinics across 12 states, helping thousands of patients on their journey to improved mobility and independence. Our success is a testament to the hard work and dedication of our incredible team, who continually strive to deliver exceptional care and innovative solutions.

To commemorate this special occasion, we held a tree planting ceremony at the Business Center on May 15th. The 16 trees symbolize our growth and commitment to helping patients thrive. We were honored to have the Mayor of Hobart, Josh Huddleston, join us in planting the trees, making the event even more special. It was a wonderful opportunity for our team to come together, celebrate our achievements, and look forward to many more years of making a positive impact. Thank you to everyone who has been a part of our journey!
