Bionic Beats

A MONTHLY PUBLICATION

51st Academy Annual Meeting & Scientific Symposium

Our leadership team has attended the 51st Academy Annual Meeting & Scientific Symposium. The event was great for networking with industry leaders, exploring new opportunities, and analyzing cutting-edge products that are shaping the future of our field.

From groundbreaking technologies to game-changing solutions, our team was able to take a closer look at the latest products that will help us stay ahead of the curve to improve our practice and overall patient experience.

Also at the Academy Meeting, our Director of Clinical Advancement and Innovation, Tony Gutierrez, CP, shared his insights from a multi-year study on fitting adjustable above knee socket systems. The study was completed on a United States Department of Defense grant alongside the University of Michigan, Rosalind Franklin University of Medicine and Science, and Bionic Prosthetics & Orthotics.

WHAT'S HAPPENING AT BIONIC

Bionic participated in a webinar hosted in partnership with BionicM. During the webinar, we were able to highlight the impact of the BioLeg prosthetic knee on quality of life. With active participation of our clinical team and live demonstration from our patient, the event fostered meaningful discussions, shared experiences, and highlighted the prosthetic technology in empowering individuals to regain freedom and mobility.

Sydney Ezell, who has been with Bionic since the beginning of 2022, has now been appointed as the new **Clinic Manager** of the San Antonio and Laredo locations. Fantastic job, Sydney!

WHAT'S HAPPENING AT BIONIC

Our Texas team attended a Health Fair at the Jim Hogg County Nutrition Center in Hebbronville. They were able to engage with the community and also had the chance to meet the Mayor of Hebbronville. Ohio

This Valentine's Day, our clinics went above and beyond to spread the love by offering heartwarming wishes to other healthcare providers and patients, ensuring that the spirit of love and care is extended far beyond our clinic doors.

Fort Myers, FL

Tracy Ortiz
Clinic Office Administrator
Bolingbrook, IL

Samuel Spencer
Lab Technician
Owensboro, KY

Lorna Downing
Clinic Office Administrator
Merrillville, IN

WELCOME TO THE TEAM!

EMPLOYEE of the Month:

SANDY SOLVIG!

“Sandy is a delight to work with. She came to Bionic without any previous experience in the field of orthotics and prosthetics and has grown immensely. She works in the Glenview office which has the largest volume of patients in the Illinois region. She has been with Bionic for nine months and has excelled in handling the high volume of patient files, walk-ins, and phone calls. She has a great attitude and rapport with our patients. We are very appreciative to have such a spunky admin on our team!”
