AAOP Nashville 2023

Bionic Grows Further Into Its Role on the National Stage

Bionic was thrilled to make waves at the 49th Annual Academy Meeting & Scientific Symposium in Nashville, TN!

We sent a team of managers, clinicians, and residents to represent Bionic and our One Source program and send a very clear message inviting others to "Grow With Bionic!"

The event was hosted at the Gaylord Opryland Convention Center, and was attended by vendors and industry professionals from across the field of O&P, showcasing new technology and research as well as groundbreaking advancements in patient care. More than that, it was an excellent opportunity for many from the Bionic family to build bonds, share stories, and grow together in community.

As Bionic continues to grow into its place on the national stage, events like this showcase our accomplishments and the opportunities that we offer to our patients and to our partners in the industry.

On behalf of Bionic, we want to thank everyone who attended, and the entire Bionic family that makes this possible!

Bionic Pet Spotlight!

BENJEN

Benjen is a 11yr old half German Shepard and Half Pit Bull. He loves playing ball, tug of war, and long walks on the beach. He has a fun goofy personality and likes to play dead. His favorite food is a cheeseburger and has a love for pup cups!

Employee of the Month:

Rose R.

Rose has an amazing ability to connect with all of our patients and they all love her. When children come in, Rose will take some time out of her busy schedule and play games with them or help stop them from crying so the practitioners will have an easier time with them. They often leave either laughing or with a huge smile on their face. She goes above and beyond in patient care, often leaving little notes to remind herself to check on patients who she knows had particularly rough weeks or patients who she knows don't have anyone to check on them. She also goes above and beyond at work, often being the first one to jump in if another employee needs help. She is a very kind and considerate co-worker. If someone is out, she will try to lighten their workload if she can so they don't feel overwhelmed when they come back. To me, Rose is one of the bravest because she is not afraid to ask any questions. She is also very humble. Whenever we tell her thank you for anything she often responds with "No, it was all you guys, we're a team!" when we all know without Rose we would be lost. She is our little ray of sunshine, and I could write a book on how much we appreciate her.
